

## Masonry Restoration Training

Masonry Restoration Training – (8 hrs / \$249) free to specifiers

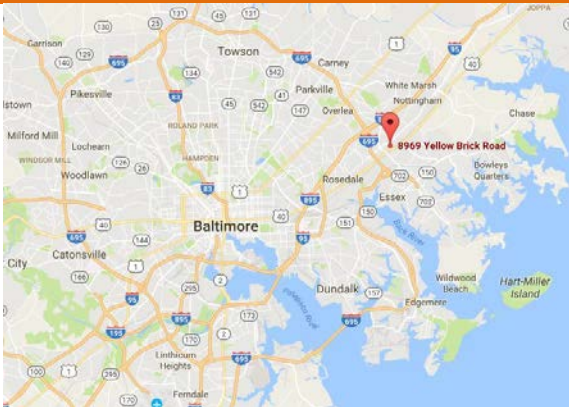

**Wed, Nov 29<sup>th</sup> 8:00 a.m. - 4:30 p.m.**

This interactive, 8 hour long workshop is designed to educate industry professionals and contractors about the **"Elements of Masonry Restoration"**.

Attendees will understand the process of evaluating and determining the material selection process for the preservation of concrete and masonry façades. The course reviews different types of masonry coating technologies, analyzes their benefits and allows for informed selection. AIA Members will receive 6.75 LU/HSW credits for successfully completing this course. (Lunch is included).

### TESTIMONIAL

Dave Moreland

The Witmer Group, Mount Joy, PA

### "Excellent training!!"

*"This 8 hour class was by far the best training that I have been a part of since I have started my masonry career 20+ years ago! The crew at **Conproco** did a fabulous job organizing and performing the training. I also had the privilege to act as the proctor for this training thru SWRI. I would highly recommend it to anyone in or new to the industry! Great Job Larry, Kirstin, Aaron and Don!"*
